

## URN CODING SEEN THROUGHOUT THIS SECTION

A = Adult  
S = Small

M = Medium  
H = Heart

K = Keepsake  
T = Tealight

 = Personalisation Options

**Adult urn - average height adult 2.8 - 3 Litres**

*All large urns come with a velvet pouch and keepsakes come boxed*

## HOW TO ORDER

*Please quote the code number when ordering.*

Various letters and numbers in the codes refer to sizes and help determine if you have selected the correct urn for your needs.

A = Adult Urn.  
Capacity approx. 2.8 – 3ltr.

M = Medium Urn.  
Capacity range from 400ml to 1ltr.  
*Medium urns will not hold the  
ashes of an adult.*

K = Keepsake Urn.  
Capacity from 35ml to 60ml.  
*Tiny urns for holding a very small  
portion of ash.*

As a general guide an adult under 6ft tall will in most cases fit in an urn that is 3ltr (or 200 cubic inches) in capacity. The weight of the person and the coffin used does not affect the amount of ash remaining.  
Height and bone density are the main factors in determining the amount of ashes which remain after the cremation.
